95,000 elderly Indians die from falls every year. Most weren't found for hours. Keeping seniors safe without asking them to do a thing. Omni Solutions is an AI-powered safety platform that uses smart sensors and on-device machine learning to automatically detect falls and cries for help. Alerting emergency contacts in seconds, it requires no buttons to press or actions from the elderly user.

KEY PARTNERS

- Hospitals & elder-care institutions
- Hardware manufacturers (sensors, wearables)
- Cloud & AI infrastructure providers
- RFID & IoT component suppliers
- Regulatory & compliance consultants
- Family caregiver networks & NGOs
- Insurance companies (data-driven risk)
- Research institutions & universities

VALUE PROPOSITIONS

- Automatic fall detection, no user action needed
- Emergency alerts within a few seconds
- Fewer false alarms
- Privacy-safe first
- Works on smartphones + home hubs
- Caregiver cloud dashboard for remote monitoring
- Encrypted emergency alerts
- Institution-grade monitoring console

KEY ACTIVITIES

- On-device ML model training & updates
- Hardware R&D and prototype testing
- Mobile app & cloud dashboard development
- Regulatory approval management
- Caregiver onboarding & support

CUSTOMER RELATIONSHIP

- Self-setup app with guided onboarding
- 24/7 alert notification system
- Monthly caregiver satisfaction surveys
- Institutional account managers
- Community & family caregiver support groups

CUSTOMER SEGMENTS

- B2C
  - Elderly individuals (60+) living alone
  - Post-surgery & high-fall-risk patients
  - Family caregiver
- B2B
  - Elder-care & assisted-living facilities
  - Hospitals & nursing homes

KEY RESOURCES

- Proprietary AI / fall-detection models
- Multi-sensor hardware (accelerometer, gyroscope, radar)
- Encrypted cloud platform & APIs
- Healthcare regulatory licenses
- ₹14 L initial investment capital

CHANNELS

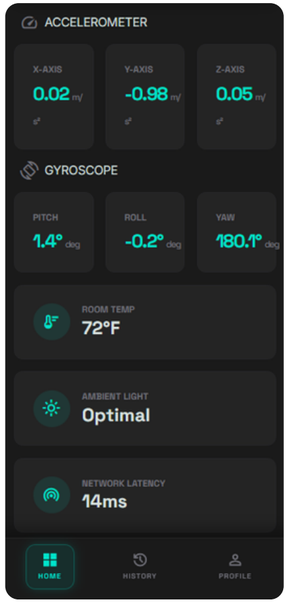

- Direct B2C: app stores & website
- B2B: hospital procurement teams
- Caregiver & elder-care influencers
- Insurance & health plan bundles
- NGO & senior-citizen community outreach
